

# Alexandria FGA Online Library

*I share, you share, we all win!*

📱 ABOUT OUR SERVICES

🏠 [www.carrefourfga.com/alexandria](http://www.carrefourfga.com/alexandria)

## SHARING PEDAGOGICAL RESOURCES AND GIVING FEEDBACK

*The Regard* team's mandate remains the same: to help teachers and education personnel to better understand the programs of study and to share their creations with the rest of the FGA network. We are available to help you develop your ideas into great learning situations (LS) or to fine tune existing ones. *Alexandria FGA's* wealth of knowledge and resources was built by and for education personnel throughout the province of Quebec.

## LEARNING SITUATION WORKSHOPS

*The Regard* team can offer personalized support for your teachers and pedagogical consultants. Production of learning situations is at the heart of these workshops. Participants have the opportunity to put the different steps into action, thus creating their own learning situation by the end of the workshops. In addition to this three day *PRO* workshop, we can also offer workshops *à la carte* to cater to your specific needs such as: how to produce a multilevel or interdisciplinary LS. Come to us with your learning situation needs, and we'll come to you for the rest!

## TO GET IN TOUCH WITH US
